PROFESSIONAL SUMMARY

Mathematics graduate (M.S.) and Codecademy-certified data analyst with hands-on Python and SQL project experience in healthcare and lifestyle datasets, seeking a junior analyst role where statistical rigor drives decisions.

RELEVANT WORK EXPERIENCE

Three years of experience as a math teacher in which the student performance on tests and quizzes were analyzed to reteach the same concepts when needed. Developed excellent communication skills working with students and parents, conducted parent-teacher conferences and communicated a plan for student improvement based on the student grades on tests.

DATA ANALYTICS PROJECTS

1. Medical Insurance Costs

Tools used: Python, pandas, seaborn

Objective: To identify the factors to reduce the medical insurance costs

Key insights/impacts: The insurance costs are low for non-smokers compared to smokers, for people with lower BMIs, and in the southwest region.

2. Sleep, Lifestyle and Health

Tools used: Python, pandas, seaborn

Objective: To analyze how the factors like sleep duration, sleep quality and physical activities affect heart rate and blood pressure

Key insights/impacts: As the physical activity level increases stress level decreases. The systolic blood pressure is low for people with normal weight compared to people who are overweight or obese.

TECHNICAL SKILLS

SQL (Data Extraction, Queries, Filtering)

Microsoft Excel (Pivot Tables, Data Cleaning)

Tableau (Dashboard Creation, Data Visualization)

Python (Pandas, Matplotlib, Numpy)

Data Cleaning & Transformation

Statistical Analysis & Reporting

SOFT SKILLS

Excellent communication skills

Adaptability and Flexibility

Critical thinking and problem solving

Teamwork and Collaboration

EDUCATION & CERTIFICATIONS

Master Degree in Mathematics(From India)

Codecademy : Data Scientist(Analytics Path)
